EDUCATION

University of California, Irvine

Graduation Date: June 2025

Bachelor of Science: Informatics (HCI)

Bachelor of Arts: Psychological Science

GPA: 3.95 (Dean's Honor List 12x)

Relevant Courses: Project in HCI & Evaluation, Software Design: Applications, User Interaction Software

RELATED PROJECTS

BabySteps App

UX Designer, Team Leader

March 2024 - June 2024

- Developed and managed the project timeline, ensuring timely completion of all deliverables.
- Facilitated group discussions and brainstorming sessions to create, evaluate, and select solutions that best aligned with prospective user's interests.
- Translated user research and team ideas into low and high-fidelity mockups, culminating into a presentable prototype

Sleep Tracker App

UX Designer, Programmer

March 2024

- Advocated for and executed user-centric design choices, emphasizing features such as a useful initial view, minimized user actions, and robust error handling to enhance the overall user experience.
- Utilized self-taught frameworks to translate high-fidelity prototypes into functional code.
- Implemented iterative design processes to meet project deadlines, ensuring alignment with the three-week timeline.

Anteater Health Portal

UX Designer

March 2023 - June 2023

- Designed a website integrating 3 different student health centers to improve user experience by centralizing information and improving website navigation.
- Conducted stakeholder elicitation over a 10-week period, collecting data related to domain knowledge and functionality requirements of the prospective website.
- Utilized models (stakeholder, goal, use case, domain) to create a system requirements specification document.

ACTIVITIES

Design at UCI

General Member

Irvine, CA

Sept 2022 - Present

- Participated in the 2023 You Belong Here Design-a-thon, collaborating with two organization members to design Commuterty, an app enhancing the experience of UCI's commuter population.

SKILLS & INTERESTS

Hard Skills: Programming Languages (Python, Java, HTML, CSS, Javascript, Typescript), Frameworks (Angular, Ionic), Design Tools (Figma, Canva, Procreate)

Soft Skills: Communication, Leadership, Teamwork

Interests: Accessibility, Languages (Korean, Spanish), Creative Writing, Reading, Doodling
